

Seungwoo Kang, Ph.D.

Assistant Professor / Research Scientist

Dept. of Molecular Pharmacology and Experimental Therapeutics

Mayo Clinic College of Medicine and Science

200 First Street SW, Rochester, MN 55905

(507) 293-0007 [office]

(619) 895-0110 [cell]

kang.seungwoo@mayo.edu

<http://www.kangseungwoo.com>**EDUCATION**

Ph.D. in Pharmacology and Toxicology, University of California, Irvine, Irvine, CA	2014
M.S. in Neurobiology, Korea University, Seoul, South Korea	2008
B.S. in Life Sciences, Korea University, Seoul, South Korea	2005

RESEARCH POSITIONS AND EXPERIENCE

Assistant Professor (Research Scientist), Mayo Clinic, Rochester, MN Dept. of Molecular Pharmacology and Experimental Therapeutics	2020-present
Assistant Professor (Research Associate), Mayo Clinic, Rochester, MN Dept. of Molecular Pharmacology and Experimental Therapeutics	2018-2020
Research Associate, Mayo Clinic, Rochester, MN Dept. of Molecular Pharmacology and Experimental Therapeutics	2017-2018
<ul style="list-style-type: none"> • Advisor: Doo-Sup Choi, Ph.D. • Demonstrated the astrocyte-neuron interaction via gliotransmitters in the striato-pallidal circuit for reward-seeking patterns and addictive behaviors • Set new experimental techniques at CHOI Lab including in vivo calcium imaging with fiber-photometry/microendoscopy and in vivo/ex vivo electrophysiology combining optogenetics to measure behavior-synchronized brain activities 	
Postdoctoral Fellow, Rutgers University, New Jersey Medical School, Newark, NJ Dept. of Anesthesiology, Pharmacology, Physiology, and Neuroscience	2014-2017
<ul style="list-style-type: none"> • Advisor: Jiang-Hong Ye, M.D., M.Sc. • Demonstrated the role of lateral habenula circuit in alcoholism and comorbid disorders including anxiety, depression, and hyperalgesia • Set chemogenetics at Ye Lab to manipulate spatiotemporal brain activities 	
Graduate Student, University of California, Irvine, Irvine, CA Dept. of Pharmacology, School of Medicine	2010-2014
<ul style="list-style-type: none"> • Advisor: Naoto Hoshi, M.D., Ph.D. • Demonstrated the cellular and molecular signal cascade of M-type potassium channel and its role in neuronal excitability modulation 	
Graduate Student/Research Associate, Korea University, Seoul, South Korea Neurobiology Program, Dept. of Pharmacology, College of Medicine	2005-2010
<ul style="list-style-type: none"> • Advisor: Kyung-Ho Shin, M.D. • Involved in pharmacogenomic studies for psychotropic drug and demonstrated the modulation of cocaine and amphetamine regulated transcript (CART) and immediate early genes by antidepressants in rodent stress models 	

RESEARCH SUPPORT

Current

K01 AA027773 (NIH/NIAAA)

Role: **PI**

09/15/19 – 08/31/23

Astrocytic Dysfunction in Anxiety and Depression during Alcohol Withdrawal

This grant investigates the tripartite synaptic mechanisms and molecules related to alcohol use disorder (AUD) using a combination of electrophysiological, pharmacological, optical, behavioral, transgenic, and computational approaches.

R01 AG072898 (NIH/NIA, PI: Choi, DS)

Role: **Co-I**

09/30/20 – 05/31/25

Chronic Alcohol Exposure and Pathophysiology of Alzheimer's Disease

This grant investigates whether alcohol exposure has sex and/or age-dependent effect exacerbating the onset and development of Alzheimer's Disease (AD) using two mouse models representing familial and late-onset sporadic AD.

AWARDS AND HONORS

Selected for the NIH Brain Initiative Summer Course on Interdisciplinary Computational Neuroscience at University of Missouri-Columbia 2019

Neuroscience 2018 Travel Award - Japan Neuroscience Society (JNS) 2018

RSA Junior Investigator Travel Award - Research Society on Alcoholism (RSA) 2016, 2017

SfN Trainee Professional Development Award - Society for Neuroscience (SfN) 2016

RBHS OVCR Research Travel Award - Rutgers Biomedical and Health Sciences 2016

Awarded Brain Korea 21 (BK21) Scholarship by Korea University (supported by The National Research Foundation of Korea) 2005-2007

PUBLICATIONS

Primary Research Articles

1. **Kang S[#]**, Hong SI[#], Lee JY, Lee H, Peyton L, Baker M, Choi S, Kim H, Chang SY, Choi DS. Activation of astrocytes in the dorsomedial striatum facilitates transition from habitual to goal-directed reward-seeking behavior. (2020) *Biological Psychiatry*. November 15; 88:797-808. [#]equally contributed to this work. [PMID: 32564901](#)
2. Nahar L, Grant CA, Hewett C, Cortes D, Reker AN, **Kang S**, Choi DS, Nam HW. Regulation of P_v-Specific Interneurons in the Medial Prefrontal Cortex and Reward-Seeking Behaviors. (2020) *Journal of Neurochemistry*. Jun 27. doi: 10.1111/jnc.15106. [PMID: 32594517](#)
3. Hong SI[#], **Kang S[#]**, Chen J, Choi DS. Indirect medium spiny neurons in the dorsomedial striatum regulate ethanol containing conditioned reward seeking. (2019) *Journal of Neuroscience*. 39(36) 7206-7217. [#]equally contributed to this work. [PMID: 31315945](#)
4. **Kang S**, Li J, Zuo W, Chen P, Gregor D, Fu R, Han X, Bekker A, Ye JH. Downregulation of M-channels in lateral habenula mediates hyperalgesia during alcohol withdrawal in rats. (2019) *Scientific Reports*. 9(1):2714. [PMID: 30804373](#)
5. Starski P, Hong SI, Peyton L, Oliveros A, Winger K, Hutchison C, **Kang S**, Karpyak V, Choi DS. Ethanol induces maladaptive impulse control and decreases seeking behaviors in mice. (2019) *Addiction Biology*. Apr 22:e12754. [PMID: 31012186](#)

6. **Kang S**, Li J, Bekker A, Ye JH. Rescue of glutamate transport in the lateral habenula alleviates depression- and anxiety-like behaviors in ethanol withdrawn rats. (2018) *Neuropharmacology*. 129:47-56. [PMID: 29128307](#)
7. Li J[#], **Kang S[#]**, Fu R, Wu L, Wu W, Liu H, Gregor D, Zuo W, Ye JH. Inhibition of AMPA receptor and CaMKII activity in the lateral habenula reduces depression-like behaviors and alcohol intake in rats. (2017) *Neuropharmacology*. 126:108-120. [#]equally contributed to this work. [PMID: 28865912](#)
8. Greene D, **Kang S**, Hoshi N. XE991 and Linopirdine are state-dependent inhibitors for Kv7/KCNQ channels that favor activated single subunits. (2017) *Journal of Pharmacology and Experimental Therapeutics*. 362:177-185. [PMID: 28483800](#)
9. **Kang S**, Li J, Fu R, Zuo W, Gregor D, Krnjevic K, Bekker A, Ye JH. Ethanol withdrawal drives anxiety-related behaviors by reducing M-type potassium channel activity in the lateral habenula. (2017) *Neuropsychopharmacology*. 42(9):1813-1824. [PMID: 28387223](#)
10. Li J, Fu C, Liu H, Fu R, Zuo W, **Kang S**, Chen P, Gregor D, Paulose R, Bekker A, Ye HJ. Electroacupuncture attenuates hyperalgesia in rats withdrawn from chronic ethanol drinking involving habenular mu opioid receptors. TEACHING AND MENTORING EXPERIENCE

Class

Neurobehavioral Pharmacology (MPET 6815), Fall Quarter 2020
Lecturer, Mayo Clinic Graduate School of Biomedical Sciences

2020

Introduction to Molecular Pharmacology (MPET 5808), Fall Quarter 2019 2019
 Neuropsychiatric - Drugs of addiction I (alcohol & opiates)
 Lecturer, Mayo Clinic Graduate School of Biomedical Sciences

Student Mentorship

Swikriti Shrestha, Rotation Graduate Student in Pharmacology Ph.D. Program, Mayo Clinic Graduate School of Biomedical Sciences (GSBS) 2019

Matthew Baker, Rotation Graduate Student in Pharmacology Ph.D. Program, Mayo Clinic GSBS 2019

Wei (Adelyn) Tsai, Summer Undergraduate Research Fellows Program, Mayo Clinic GSBS, (University of Minnesota) 2019

Phillip Starski, Graduate student in Neuroscience Ph.D. Program, Mayo Clinic GSBS 2018-2019

Lauren Rivera Pagan, UPR-Mayo Summer Research Program, Mayo Clinic GSBS, (Medical Student in University of Puerto Rico) 2018

Pei Chen, Exchange Graduate Student, Rutgers Biomedical and Health Sciences, (Beijing University of Chinese Medicine and Pharmacology) 2016-2017

Avi Shah, Summer High School Student, Rutgers Biomedical and Health Sciences 2016

Liangzhi Wu, Visiting Scholar, Rutgers Biomedical and Health Sciences, (The Second People's Hospital of Guangdong Province, China) 2015-2016

Hongwei Liu, Exchange Graduate Student, Rutgers Biomedical and Health Sciences, (Beijing University of Chinese Medicine and Pharmacology) 2015-2016

SERVICE AND OUTREACH

Ad Hoc Reviewer

Frontiers in Pharmacology, Plos One, Alcoholism: Clinical and Experimental Research, Neuroscience Letters, Cells, Biomolecules, International Journal of Molecular Sciences, Cardiovascular Drugs and Therapy Since 2015

Guest Editor

Special Issue: The Neurobiological Mechanisms Underlying Individual Differences in Addiction, Journal of Personalized Medicine (ISSN: 2075-4426) 2020

Judge, GSBS Research Symposium Poster

Rutgers University Graduate School of Biomedical Science, Research Symposium 2016

PROFESSIONAL MEMBERSHIPS

Member, American Society for Pharmacology and Experimental Therapeutics 2019-present

Overseas Member, The Japan Neuroscience Society 2018-present

Member, Research Society on Alcoholism 2015-present

Member, The New York Academy of Sciences 2014-present

Member, The Society of Neuroscience 2007-present

PRESENTATIONS

Invited Talks

- University of South Florida*, Taneja College of Pharmacy, Department of Pharmaceutical Sciences. "Astrocyte-Neuron Communication in Reward-Seeking and Alcohol Use Disorder" 2020
- Medical College of Georgia at Augusta University*, Department of Pharmacology and Toxicology "Astrocyte-Neuron Communication in Reward-Seeking and Alcohol Use Disorder" 2020
- University of Texas at Tyler*, Fisch College of Pharmacy, Department of Pharmaceutical Sciences "Pharmacotherapy in Alcohol Use Disorder" 2020
- University of Cincinnati*, College of Medicine, Department of Pharmacology and Systems Physiology "The Role of Astrocyte-Neuron Communication in Alcohol Addiction" 2020
- Korea University*, College of Life Science & Biotechnology, Division of Life Sciences "The Role of Lateral Habenular in Alcohol Use Disorder" 2018

Conferences

1. **Kang S**, Hong SI, Lee H, Starski P, Peyton L, Choi DS. Activation of astrocytes in the dorsomedial striatum differentially regulates medium spiny neurons and reward-seeking behaviors. The 58th annual meeting of the American college of neuropsychopharmacology in Orland, FL Dec 8-11, 2019.
2. **Kang S**, Hong SI, Lee H, Choi DS. The interaction of astrocytes and medium spiny neurons in dorsomedial striatum regulates adenosine-dependent reward-seeking behaviors. The 49th Society for Neuroscience annual meeting in Chicago, IL. Oct 19-23, 2019.
3. **Kang S**, Hong SI, Paek B.S., Starski P, Peyton L, Choi DS. Ent1-dependent adenosine signaling in the dorsomedial striatum regulates ethanol-containing reward seeking behaviors. The 42nd annual research society on alcoholism scientific meeting in Minneapolis, MN. June 22-26, 2019.
4. **Kang S**, Li J, Bekker A, Choi DS, Ye JH. Dysfunction of astrocytes in lateral habenula contributes to anxiety- and depressive-like behaviors during ethanol withdrawal. The 41th annual meeting of the Japan neuroscience meeting in Kobe, Japan. July 26-29, 2018.
5. **Kang S**, Li J, Zuo W, Fu R, Gregor D, Ye JH. Hyperactivity of lateral habenula neurons during alcohol withdrawal promotes anxiety-like behaviors involving downregulation of M-type K⁺ channels. The 40th annual research society on alcoholism scientific meeting in Denver, CO. June 24-28, 2017.
6. **Kang S**, Li J, Ye JH. Ethanol withdrawal drives hyperalgesia via reduction of m-type potassium channels in the lateral habenula. The 46th Society for Neuroscience annual meeting in San Diego, CA. Nov 12-16, 2016.
7. **Kang S**, Ye JH. Glial dysfunction in lateral habenula contributes to anxiety- and depressive-like behaviors during ethanol withdrawal. The 39th annual research society on alcoholism scientific meeting in New Orleans, LA. June 25-29, 2016.
8. **Kang S**, Li J, Fu R, Zou W, Gregor D, Ye JH. M-channels in lateral habenula modulate anxiety behaviors and ethanol consumption in rats withdrawn from repeated ethanol exposure. The First annual Rutgers Brain Health Institute Symposium. Duncan Family Sky room at St. Peter's University, Jersey City. Oct 26, 2015.
9. **Kang S**, Ye JH. Increased excitability of lateral habenula neurons via down regulation of m-type potassium channel in rats withdrawn from repeated ethanol exposure. The 45th Society for Neuroscience annual meeting in Chicago, IL. Oct 17-21, 2015.

10. **Kang S**, Kosenko D, Greene N, Hoshi N. The regulation of M channel via phosphorylation of calmodulin by CK2. Program No. 246.08. The 42th Society for Neuroscience annual meeting in New Orleans, LA. Oct 13-17, 2012.
11. **Kang S**, Kim HJ, Kim S, Shin S, Shin KH. Effects of reboxetine and citalopram pretreatment on changes in cocaine and amphetamine regulated transcript (CART) expression in rat brain induced by the forced swimming test. Program No. 56.19. The 38th Society for Neuroscience annual meeting in Washington, D.C. Nov 12-16, 2008.
12. **Kang S**, Park SH, Lee KH, Lee MS, Shin KH. Effects of reboxetine and citalopram pretreatments on the forced swimming test-induced changes of early growth response-1 expression in rat brain. Program No. 711.2. The 37th Society for Neuroscience annual meeting in San Diego, CA. Nov 3-7, 2007.
13. **Kang S**, Park SH, Lee KJ, Lee MS, Shin KH. Effects of reboxetine and citalopram pretreatments on the forced swimming test-induced changes of early growth response-1 mRNA expression in rat brain. 2007F-159 (P-F4). The Korean Society for Brain and Neural Science annual meeting, Jeju, South Korea. Nov 16-17, 2007.
